NOTES FROM WASHINGTON
Udolpho Wolfe's Son & Co. Secure the Exclusive Right to the Trade-mark or Label "W. A. S."—The Imitation thereof is Felony.
It is learned from Washington that the United States Patent Office has granted, under date of October 9th inst. to the famous house of Udolpho Wolfe's Son & Co., the exclusive right to a label having the words "W. A. S." as applied to schnapps. This label has been used on the top of every bottle of the "Wolfe's Schiedam Aromatic Schnapps" for nearly ten years past, but it is only now that the title has been registered. It is done for the better protection of the house and their customers, and the reporter who writes this article learns that Messrs Udolpho Wolfe's Son & Co. intend to prosecute with the utmost severity of the law, all infringements upon their rights in this label. Their schnapps has been upon the market for forty years past, and it is now sold and used in every part of the World. There is no other article of the kind that is worthy of being compared with it, so great is its merit. Its purity is absolute and invariable, and this is the basis upon which its wonderful and world-wide popularity has been built up. In the hands of medical men it has worked wonders—and in point of fact it is one of the most valuable adjuncts to the modern "materia medica" at present known to science.
Owing to the enormous demand for this article, unscrupulous parties have been led to imitate, and in future, purchasers would do well to see that the letters "W. A. S." are on the bottle. To imitate this label is felony.

PRINCE BISMARCK INTENDS EXPLAINING HIS COLONIAL POLICY.

New York, 21—The last advices from Samoa are of a very serious nature. It appears that on the 18th December the crews of the German war vessels Adler, Olga and Eber landed and attacked King Mataafa They were led by the German Consul. A fierce struggle ensued, 22 Germans being killed and 32 wounded. The marines then beat a retreat, setting fire to the houses of Americans and trampling on the United States flag. They, moreover, took many Americans prisoners, and sent them on board. On the 19th December they landed again to the number of 180, and entered shops, cafés and private houses in search of American and British residents. On the 21st the Olga bombarded Samoa, and subsequently sent three boats to fire the settlement. The United States Consul immediately telegraphed to Secretary Bayard, informing him that the flag had been fired at and carried away burning by the Germans, and that the lives and properties of Americans ran considerable risk.

Suakim, 21—It is said that since his last defeat by the British troops the Mahdi has now to deal with a civil war.

New York, 21—The cruiser 'Atalanta has left for Haiti.

London, 19—Twenty-five people perished in a colliery explosion.

Sydney, 19—The new Cabinet has been bowled over.

Prince Bismarck will probably declare that the British Government have been kept well posted in regard to German policy in East Africa.

MONTEVIDEO.

SOLUTION OF THE BANK QUESTION.

RIGHTS AND CONDITIONS OF THE NEW CHARTER.

(From our special Correspondent.)

M'Video, 23rd.

Owing to the lateness of the hour last night, I was unable to wire the principal clauses of the Bank Bill which ran as follows:—

1st—The National Bank of Uruguay is authorized to increase its capital to twenty-five millions. This is an increase of thirteen millions over the capital fixed in the original charter.

2nd—The Bank is authorized to increase its issue of fractionary currency to six millions, that is two millions more than before.

3rd—The Government binds itself to guarantee the mortgage bonds issued by the Bank on condition that the Cedulas will earn interest equal to what the Bank collects on same. I may add that owing to the very unfavourable atmosphere in the London market, where these mortgage bonds are no longer saleable, the Bank has abandoned the issue of same for the moment. There is not a word of truth in the rumour that Baring Bros. have taken up either £2,000,000 or $2,000,000 of these Cedulas.

4th—The present number of directors of the Bank shall be increased by one specially appointed by the government. This raises the number of directors to eleven.

5th—The original statutes, in that part relating to the post of manager of the bank, have been entirely amended. The manager of the Bank shall not be a member of the Board.

6th—The most important of all: 6 o/o of the profits of the Bank shall go to the government. This is pretty stiff.

7th—In all further increase of the Bank's capital the government shall be entitled to half that increase in shares and on a par, on equality of terms, with the shareholders in the subscription.

The Bolsa ruled very firm this evening as the Bank Message made a very good impression.

National Bank Shares closed at 158½, and National Bank Cedulas were quoted at 77 and 79. Bank Shares for end of February at 161.

The Obras Publicas Shares closed at 69.

The tendency of the market is very visibly for a rise.

Mr. Federico Balparda who has so many friends on both sides of the Plate, died suddenly whilst signing the deed of sale of the Bolsa building; he was liquidator of the society.

THE SAMOA ISLANDS

Yesterday's telegrams announce a very serious state of affairs in the Samoa Islands and diplomatic difficulty of magnitude rising on the horizons of the United States, Great Britain and Germany. The German Government has been most unfortunate in its endeavors to start German colonies, and if its experience on the coast of Africa has been disasirous, its most recent effort in Samoa threatens to become a calamity.

The Samoa Islands are situated in the Pacific Ocean, 170° W. of Greenwich and 12°4. S. known as Samoa, Hanioa or Navigators' Islands. These islands are governed by a King, Mataafa, who resides at Apia, and are peopled by a fine race, addicted to sea-faring life and of a warlike nature. The climate is delightful, the scenery is beautiful, and the soil is most fertile; a kind of sublunar paradise like the majority of the islands in that part of the Pacific Ocean. The coasts are low and good harbors are numerous.

Several European powers have planted their flagstaffs on Samoan soil and foreign consuls appear to be the curse of the soil and the cause of the present difficulty. It is no wonder if cablegrams from Europe announce much excitement over the Samoan question in diplomatic circles, when we read such details as those in our telegraphic column. We are inclined to believe that the conduct of the German marines and last, not least, the German consul are grossly exaggerated; if not, an apology to the British and American Governments must come from Berlin and a heavy indemnity will have to be paid in the bargain.

POOR RELIEF IN THE U. KINGDOM

London, Dec. 15.

The returns are published of the number of paupers and the sum spent in their maintenance during the past year, as compared with previous years. First as regards numbers we find as follows:—

	Jan. 1878	*Jan. 1888*	*Increase per cent*
England...	743,000	826,000	11
Scotland....	96,000	92,000	
Ireland.....	86,000	114,000	33
U. Kingdom	925,000	1,032,000	12

In England we stand better than we did ten years ago, the number of paupers having increased less than population. As for Scotland the sum of pauperism has actually diminished, which is the strongest proof of increased prosperity. When we turn to Ireland the story is a sad one; the population having diminished by 300,000, and yet the paupers increased 33 per cent.

Comparing the numbers with the population of each of the 3 Kingdoms we find as follows:—

Paupers to 1,000 inhabitants

	1878	1888
England.....	30	29
Scotland.....	27	23
Ireland.....	17	24
U. Kingdom..	28	28

In England and Scotland the decline of pauperism is progressive, whereas in Ireland the march of misery is clearly defined. I need hardly point to the fact that the difference between the relative positions is most painful, for where you formerly had 17 paupers in Ireland you now have 24, an increase of 40 per cent. In other words, during the last ten years the sufferings of the Irish people have grown 40 per cent., thanks to the admirable system of government, alternately by Whigs and Tories. There is unquestionably no other country in the world which has advanced 40 per cent. on the road to ruin since 1878.

Moreover it is to be borne in mind that the number of paupers in Ireland conveys but an incomplete idea of the amount of misery and persecution which the bulk of the people have been suffering. They have such a horror of going into the Union Workhouses that they often prefer to die of hunger by the roadside. Nothing is more admirable than the close bond of affection which unites the family of the poorest Irish peasant. Sooner than be separated from his wife and children, as the Poor Law commands, he will suffer want, misery, exposure and famine.

The amounts expended for poor-relief in the 3 kingdoms shew thus:—

	1877	1887	*Increase per cent.*
	£	£	
England...	7,400,000	8,200,000	11
Scotland...	840,000	900,000	7
Ireland	1,020,000	1,370,000	35
	9,260,000	10,470,000	13

In England, although the sum expended is 11 per cent higher, the burthen has in reality become much lighter, owing to the prodigious increase of wealth. The table shews as follows, the assessed rental of rent property in England and the ratio of tax on same expended for the poor

	Assessed rental	*Poor-rate per £.*
1877...	140,990,000	12
1887...	177,240,000	11

John Bull saves one penny per £ in supporting the poor, as compared with 1877, being equivalent to a reduction of 8 per cent. The tables do not give any statement of assessed property for Scotland and Ireland.

Comparing the amount spent on the poor with population we find it comes out as a tax per head thus:—

	1877	1387
England	72 pence	69 pence
Scotland	56 „	54 „
Ireland	46 „	67 „

The cost of the poor, as a poll-tax on the people of the 3 kingdoms, has fallen 4 per cent in England and Scotland, but risen 46 per cent in Ireland. I do not know if my readers fully appreciate the amount of misery which an increase of 46 per cent in a local tax of this kind must have brought with it. But I am fully justified in saying that, to collect Income Tax in such a country is absurd and abominable. Sir Robert Peel said very truly that it would be monstrous to levy Income-tax on Ireland. A country which has become a standing reproach to the civilization of the 19th century, which has been governed in a manner diabolically devised to crush out every noble sentiment, palsy every effort at progress, and keep everyman at enmity with his neighbor, can hardly be supposed in a position to bear the same taxes as England or Scotland, two of the richest countries in the world. Yet this enormity prevails, and poor, unfortunate, beggared Ireland has not merely to pay a poor-rate which has risen 46 per cent since 1877, but the Income Tax also.

M. G. M.

MEMS OF DUBLIN.

XXIII

The run from Holyhead to Kingstown is worse than a voyage from Buenos Aires to Genoa. It is strange how desperately rough the Irish Channel always is. We had Peers, nobles and landlords by the score as fellow passengers, all hopelessly sea-sick, and, when, after a short run of four hours, we arrived at Kingstown, we were all in such a miserable plight that, as the Italians say, we were all "pari;" we were indeed all equal. Lady Somebody had to be lifted from her cabin to the train. The stewardess on board when she saw our names on the trunks, at once recognised me, as she was the the widow of the schoolmaster who, 40 years ago, taught me Greek and Latin. My wife and daughter, who had crossed the South Atlantic without five minutes' seasickness, were awfully seasick after leaving Holyhead, and the stewardess, to make matters worse, told the señora that it was an unusually fine passage, and that generally the Channel at the mouth of Dublin Bay is much rougher.

It was pouring rain when we landed at the Westland-row Station, and the crowd was so great that we found some difficulty in getting a jaunting car, which to our mind, is the jolliest and pleasantest means of conveyance in all Europe, although ladies from Buenos Aires, unaccustomed to them, have to hold on very hard to keep from being tossed off. The most fashionable hotel in Dublin is the Shelbourne, as it is also the dearest. It is situated in Stephen's Green, which is the best square in the city; nearly all the high-life tourists stay at the Shelbourne; we, however, put up on the other side of the Green, at Mrs. Guestes, next door to the very house we were born in. Sr. Don Juan Varela, son of Don Juan Cruz Varela, and Sr. Anchorena, son of Madam Mercedes Anchorena, were at the time staying at the Shelbourne, having come over to Ireland to buy horses. The late Mr. John Brown, of Lujan, and his two daughters, were also staying at the same hotel, which was filled with American tourists who were all weather-bound and waiting for fine weather to return to the River Plate.

We found Dublin much improved since our last visit in 1878. A magnificent new bridge, equal to any to be seen in Paris or in London, has been put over the Liffey leading to Sackville Street; it is called after the great Liberator, The O'Connell Bridge. All the old houses in George's Street facing Pim's have been pulled down; and a fine hotel, large market, and good shops erected. In the old dingy part of the city, known as the Liberties, new streets have been opened new mataderos have been constructed at Phibsborough. New tramways have been started in every direction; and although there is still great poverty in the city, it seemed to us to wear an improved air and a healthier movement than in 1878, when whiskey and porter monopolised everything. Messrs. Guinness and Mahon have erected decent offices in Dame Street which, although not at all on a par with those of the same gremio in Buenos Aires, always spoke improvement. Mr. McCann, the leading stockabroker in Dublin, has also built convenient and unpretending offices. The Bolsa, or Exchange, is alongside, but as it is a shut borough, we did not visit it. As a building it is nothing, and as well we might compare it with the Bank of Ireland as with the magnificent Bolsa of Buenos Aires. They are building in Kildare Street some very fine wings to the Museum. The public school edifices which we visited are very shabby and untidy, and fully a hundred years behind those of Buenos Aires.

The churches of Dublin for one fresh from the Duomos of Italy are, of course, not to be spoken of. We visited them all, including St. Patrick's and Christ Church, and we may safely say that in this line Dublin has nothing to compare with the Cathedral of Buenos Aires. The Dublin suburbs are, however, simply splendid and far away ahead of anything in Buenos Aires; we must also say, that in the way of roads, streets, highways and pavements, it is fully a hundred years ahead of us. We visited the Castle, St. Patrick's Hall, the ballroom, banquet-hall, &c., but they all seemed to us faded and neglected. The statues in the halls of the Four Courts were thick with dust; the shop windows in some of the principal streets were gay enough, and the shop girls as a class extremely neat, tidy, and well dressed.

The streets during business hours were thronged and crowded, but the Park, which is one of the finest in Europe, was completely deserted. We drove there frequently during our stay, but never met a soul save a few straggling soldiers and erect policemen.

Owing to the customs of the city most of the shops are shut at 6 p. m., and as nearly all the well-to-do families live in the suburbs, the town at night wears a deserted aspect. There are two theatres both of which are open—the Gaiety, at the corner of Grafton street, which is a very small concern, is the most respectable—the Queen's theatre is in Brunswick street and is not considered the place for ladies. It seemed to us that Dubliu suffers from too much domesticity, and that there was but one step from the charms of home to the vices of the public house. Café life is unknown in Dublin, and but for the garish glare of the illuminated taverns and gin palaces, the city after 6 p. m. for the tourist and the stranger might be compared to a convent for its quietness and repose. The rain was incessant during our stay; and, although in the middle of summer, there were fires in every drawing-room.

The people are polite, affable and hospitable to a fault, and notwithstanding all the political excitement going on, and of which one reads so much in the papers, everything is as quiet, orderly and peaceable in Dublin as in any other European city we visited. The newspapers are very well edited and are far superior to those of Paris or Genoa. The *Freeman's Journal* is beyond question the chief organ and has an immense circulation, but Dublin people are not such newspaper readers as Buenos Aireans, and frequently we remarked that European, or we should say, Continental news is published in Buenos Aires before it appears in the columns of the Dublin papers. What struck us much was the overimportance given to police reports, law suits, etc.; things that never would go down in a Buenos Airean newspaper are, to the exclusion of the world's news, published with the fullest details in Dublin.

The Argentine Republic is certainly better known in Dublin now than it was ten years ago, and this is due to the exertions of Mr. O'Meara, the River Plate immigration agent, who has opened offices in Sackville street and who is most unceasing in his efforts to promote Irish emigration to the River Plate, which for some cause or other meets with the greatest opposition.

On the morning we visited Mr. O'Meara he showed us a large pile of letters which he had just received from persons almost in every walk in life inquiring about the Republic, and we were astonished to see the large amount of business transacted in his office. We paid him many visits during our stay, and always found the place very busy, and when we bid him good-bye we felt it our duty on the first opportunity to compliment Dr. Quirno Costa, Argentine Minister of Foreign Affairs, on the great improvement he has worked out in this department, as we well remember in 1878 when we called on the Argentine agent in Dublin he had to refer to the Directory to satisfy himself whether he was Consul or not for the Republic.

LONDON LETTER.

(From our own Correspondent.)

POLITICAL JOTTINGS.

Dec. 19.

Here is a new danger for you;

Mr. Robert Giffen, of the Board of Trade, last night read a paper before the Royal Statistical Society, in which he dealt with recent changes in prices and incomes. By two diagrams, Mr. Giffen showed that commodities and money were both increasing from 1850 to 1873, the ratio between them remaining steady. After the latter year commodities went on increasing as before, but there was a check to the increase of money. The recent fall of prices, therefore, in a dynamic comparison, was clearly due to a change in money. As to the social and other effects of the appreciation of money in redistributing wealth, they were most serious to those who had debts to pay. Appreciation prevented them gaining by the development of industry. Where debts increased fast, and where, in addition, as in France, there was no rapid increase of population, the problems involved in the appreciation of money might at any time become serious. He should look for troublous times, for instance, in some of our Australasian colonies, and in a country like that of the Argentine Republic, even if the appreciation of money did not grow more serious than it had already proved. The increase of the wealth of such borrowers ought to be enormous to enable them to bear safely the debts they were incurring.

You must not imagine from this that Mr. Giffen is so far gone as to have changed his religion, although from his latest symptoms no one would be surprised if he died a bimetallist. At present his idea is that gold is not good enough to serve as a standard. He seems to incline towards corn, the price of which determines the money value of tithes. He barely mentions silver, and is evidently of opinion that the remonetisation of that metal would have no appreciable effect upon prices. He, however, seems to agree with Jevons that prices are affected by the varying value of the precious metals so long as we adopt a metallic standard at all. Mr. Giffen is a born statistician. That he should pose as an economist and think aloud, and expose the process of the gradual education of his own opinion is a misfortune. I have said Mr. Giffen may die a bimetallist. On further reflection I think he will die a socialist, abjuring the pomps and vanities of a wicked individualistic world, its money, its sweaters and all that is therein. If the wealth of the Argentine Republic is not increasing rapidly enough to counteract the increased value of gold, the use of which is being economised by the advance of commercial knowledge and of physical science, it is indeed a bad look-out for older countries; but why France should be singled out as a sad example by reason of her comparatively stationary population, is either a flat denial of the Malthusian doctrine upon which Mr. Giffen and his school rest, or it is flat nonsense; seeing that France with all her unproductive expenditure does increase rapidly in wealth, in proportion to the population. What Mr. Giffen's doctrine tends to disseminate is the idea that perpetual interest on national debts is, like perpetual pensions, a mistake, and that interest is amortization, and that the principal must be calculated at the value of gold at the date at which the debt was contracted. Mr. Giffen unconsciously opposes all unearned increments. If our debts are not to increase with the value of gold, our incomes should not increase with the value of land. Mr. Giffen says it is unfair that a man should contract a debt now for £1000 and have to pay for it virtually £1500 some years hence through the appreciation of gold. Why unfair? If it be so, the whole system of modern society is unfair—a system wholly founded upon rent. Upon the expiry of a lease the rent of land may be doubled or quintupled simply on account of the "appreciation" of land, an appreciation depending upon demand and supply, as is the case with gold. The intrinsic values are not changed. Indeed, in respect to land the value after a long lease is less, as the produce is likely to be less in proportion to the capital expended. These fellows wriggling in the meshes of the old political economy are in every effort to release themselves unconsciously falling into the jaws of the socialists.

They say that 600 members of the National Liberal Club have followed the lead of Lord Hartington and resigned. Lord Hartington, speaking at Liverpool, allowed us to see the reason for his resignation. He would not accept the Radical programme which to a certain extent Mr. Gladstone adopted in his farewell address to the East End working population at Limehouse just before his departure for Italy. Lord Hartington is pleased to think that programme is impracticable, and that there are no grievances left to redress except in Ireland—his lordship means the grievances of the landlords. He thinks the next general elections will turn upon the integrity of the empire and the vindication of the law of England in Ireland. That Lord Hartington when the guest of his Liberal friend the Earl of Derby, should emphasise those two questions is a proof that with the English and Scotch "classes" the Irish question means the interests of property in this island as much as in the Island of Saints, Lord Hartington's peevish separation from the National Liberal Club has destroyed the old name of "Liberal." What has been prophesied over and over again has come to pass. There are henceforth only two parties in this country, Tories and Social Democrats. Even "Radical" is now a thing of the past. It lives only in our hnnoured name Bradlaugh. The bankers, lawyers, merchants, manufacturers, shipowners, directors, steam-packet managers, middle-class and self-made men who once opposed the landed interest and called themselves Radicals are now Unionists, and with Mr. Joe Chamberlain caper nimbly in ladies' chambers, tea with duchesses, and vote with the Tories. They were always a vulgar lot, but I fear their "vis inertia" will delay reforms in this country for some years to come. One of them is just dead—Sir William Pearce. He was originally a common shipwright at Chatham. He lived to be chief partner in John Elder and Co., of Glasgow, and to be a Unionist. Just go over the list—Chamberlain, Collings, Currie, Sutherland, Smith (W.H.), Taylor, Thorburn, Crossley, James, Rylands, Pearce, Russell (T. W.), &c.; they all smell of porridge and leather aprons. The second generation, the Hon. Allsopps, &c., are full-blown Tories. All deserving men but hideous examples of the "appreciation of gold." The grand old gentleman whose vanity is within a measurable distance of madness, and to whom the whole "skedaddle" of the wealthier among the masses into the ranks of the classes is due, left Victoria Station this morning for Florence. His grinning enemy, Lord Salisbury, who looks upon him as a black man, or as an American Democrat, or as an Irish Hottentot, hopes he will return safe and well, but is providing for accidents by tumbling W. H. Smith into the Upper House, and giving the lead of the Lower to Goschen. Such, I understand, is to be among the arrangements for next session. The Government will want all the support it can get to counteract Lord Salisbury's own follies—his peevish resentment against President Cleveland and the Democratic party in America, his blundering in the Soudan and South Africa, his subserviance to Germany in East Africa, his cavalier treatment of the Australian Colonies, his insults to India, his tyranny in Ireland, his cynical and offensive treatment of the House of Commons, his antiquus worship of caste, his flippancy, inaccuracy and incontinence of language, his hatred of dissenters, his melo-dramatic notions of royalty and Raleigh, like obeisances to the Queen and the coming King who—well, the tale is, I believe, an old one, and untrue, but as the *Pall Mall* reported it from Edinburgh, it was very good. In Mary Queen of Scot's chamber in Holyrood a skeleton baby has just turned up in the wall. It was found wrapped in a cloth of gold. So that James VI. and the Houses of Stuart and Brunswick are spurious.

The *Daily News* correspondent at Rome says:—"Monsignor Persico, although he does not openly avow it yet lets it be understood when he speaks of his Irish mission that as the Pope has given to his intervention a signification more political than moral, His Holiness will find great difficulty in bringing it to a satisfactory conclusion. Of Monsignor Persico it can be said that in spite of his good intentions and great ability he has not succeeded in forming a decided judgment as to the real proportions of the Irish grievances, or of the reasons which render necessary or justify the present movement in Ireland. He met almost everywhere with the strangest contrasts—aspirations justifiable in theory, but put into practice by most extreme means, the fruit of long sufferings, in the past as well as in the present. It is generally believed that the speech which the Pope will deliver on the 24th of this month at the Sacred College will be most important, and deal decisively with the political question.

THE NATIONAL BANK OF URUGUAY
versus
THE PROVINCIAL BANK OF B. AYRES.

(From the Montevideo "River Plate Times.")

The total credits and discounts accorded by the National Bank of Uruguay in 1888, as we mentioned in our last issue, amounted to no less a sum than $38,949,503.96 dollars, gold, distributed as follows:—

First Half Year.

	$
January...	2,843,786.27
February..	1,504,801.12
March	2,227,562.74
April	4,749,173.18
May.....	5,073,395.47
June.....	2,016,216.44
	18,414,935.22

Second Half Year.

	$
July	1,345,533.55
August....	2,249,845.72
September	3,085,945.04
October....	3,222,757.15
November.	6,566,904.19
December.	4,067,583.08
	20,534,568.74
Total in the year	38,949,503.96

To make these figures more eloquent it is necessary to establish some standard of comparison by which they may be judged.

The Provincial Bank of Buenos Ayres is the financial giant of South America and makes no mean figure even when compared with the greatest banks of Europe and the United States, in fact, it has even been said that it is the third or fourth bank in the world.

Under these circumstances we think the most patriotic desires of this country should feel satisfied and flattered that we are able to state that, in the very second year of its existence, the National Bank of Uruguay has discounted as much as the grand Provincial Bank of Buenos Ayres. Yet such is the case, as the following figures, which have just been published in Buenos Ayres, will prove:—

Total discounts of the Provincial Bank of Buenos Ayres in 1888.

	gold	currency
January....	753,000	3,000,539
February...	1,546,188	3,354,131
March.....	1,553,500	4,695,400
April.....	75,000	2,044,876
May.....	3,359,656	1,593,019
June.....	884,960	2,042,420
July.....	332,000	3,417,600
August.....	761,211	4,292,313
September.	778,397	5,854,338
October....	1,137,668	8,257,219
November.	301,920	2,035,331
December..	342,000	4,085,400
Total....	$10,825,500	44,662,586

Reducing the $44,662,586 paper to gold, calculating that Argentine currency has depreciated one third, we have the sum of 29,775,058 dollars gold, which, added to the 10,825,500 dollars gold discounts, gives a total equal to 40,600,558 gold dollars, scarcely a million more than the amount discounted by the Uruguay National Bank in the second year of its existence.

Now when we take into account that in the past year the Bank has had to clear off all its opening expenses, arrange the Government Loans, etc, we must acknowledge that it has done wonderfully well for commerce.

Where the Provincial Bank has an enormous advantage over the National Bank of Uruguay is in its deposits and emission.

According to the last published balance sheet of the National Bank the general deposits at fixed dates only reach 5,014,506 $; the savings bank deposits 18,410 $; judicial deposits $ 664,533 75 cts. those of the Government 2,612,622 $; and current accounts 3,094,601 $. This giving a total of 8,310,071 $, three quarters of which belong to the Government and the Junta of Monte Video.

The provincial Bank this past year, 1888, closes its books with 16,731,948 $ in current account deposits, and 54,039,609 $ deposits at fixed dates, an enormous total of 70,771,647 $ currency.

This then is the grand difference in the two institutions; the National Bank works chiefly on its capital, for its deposits only reach some 8 millions and its emission a little over 6 millions, according to the November balance.

It would be difficult to overestimate the enormous strides the National Bank of Uruguay will make when, as the natural result of its careful administration the great prestige it has already acquired shall have expanded and increased till the amount of its deposits and the acceptation of its emission shall rival that of the colossus of Buenos Ayres.

INSPECTOR HERNANDEZ'S REPORT—THE ACCIDENT NEAR GENERAL RACEDO STATION. THE INSPECTOR'S VERSION—STEAM TRAMWAY IN SANTA FE.

Inspector Hernandez's report was received yesterday at the National Railway Board. He writes from Rosario about the B. Ayres and Rosario Line. He observed no delays of importance. The time-table rules supreme. The Andine and Argentine Great Western put on a little more steam and endeavor to imitate the Buenos Ayres and Rosario Line.

Another report received by the Board yesterday was Mr. Quesada's, dated Uruguay, Jan 20. He gives a full account of the accident near General Racedo station which we mentioned some days ago. It appears a few tame cows were crossing the line and the driver did his best to pull up and would no doubt have succeeded in preventing an accident but for a big lumbering "novillo" which made it a point to run right against the engine "Procumbit humi bos", but the train was knocked off the track by the violence of the shock. Mr. Quesada wrote to the manager requesting him to commend greater care on the part of the drivers. The Inspector has nothing else to say. It is probable no fine will be levied this time. The reports from the sub-inspectors fully bear out Mr. Quesada's versions of the accident.

A Santa Fe exchange devotes a few lines to Mr. Miles' proposed steam-tram line in that city. Before we proceed to extract our contemporary's remarks we may say that Santa Fe can no longer be considered what our Rosario correspondent dubbed it years ago—Sleepy Hollow. So far from being a prey to Rip van Winkleism the smiling city is now one of the most go-ahead. In fact, it shews the whole country an example by entertaining the project of starting steam-tramways. In the course of our travels we observed that the Napolitans are much "aficionados" to the steam-tramway, and it is a wonder some sturdy son of Naples, and not an Englishman, should be the first to start the idea here. Our Santa Fe contemporary, however, says that Mr. Miles is not the first to propose steam-trams in that city, but his project is by far more acceptable than the rest. Mr. Miles proposes to connect the following colonies by means of his Line: Nuevo Tornio, Felicia, Sarmiento, Sotomayor, Providencia Reyna, Margarita, Humberto I., Sunchales, Aldao, Fidela, Vila, Santa Clara, Saguier, Susana, and Aurelia. Mr. Miles, besides, proposes to erect stations at every point of junction with the Colonies Railway. The proposal is in every way advantageous, no privilege or guarantee being asked. Mr. Miles merely applies for the right to lay his rails, and we hope the Santa Fe Government will find no difficulty in granting him the concession.

In the last number of the *Railway Times* we see that Mr. Roberts, so many years resident Engineer for the Great Southern Railway here, has been appointed as General Manager of the Ferro Carril Gran Oeste Argentino.

EDITOR'S TABLE

Every editor in town jumped from his chair yesterday on opening and perusing the Galveston telegrams about events in Samoa. They are the most serious announced from Europe for some time. Our readers will find the stunning news in another column. It at first seems like a sensational "canard" but the details are so minute it is hard to doubt them. One thing is certain if the tale be true; Uncle Sam must have ample reparation, ample apology for the insult to the Stars and Stripes, ample indemnity. Nevertheless, it strikes us that there are two sides to this as to all other stories, and it is almost impossible to believe that German naval officers can have acted with such imprudent haste. No doubt further details will come to-day.

Mr. Edward Casey and a large party of friends leave this morning for Curamalan for some days sojourn in that delightful part of the country.

The most extraordinary rumours about political affairs in Mendoza and in general were afloat yesterday. As usual in great emergencies here, and indeed everywhere, the telegraph wires conveniently or inconveniently break down at the critical moment. Dr. Pacheco, Minister of Finance, left in an express train for Cordoba on Tuesday night.

In racing circles the latest news is that Ormonde, Fleur de lys and Acme have all been bought for the Plate, £22,000 being paid for the first, £3000 for the second, and £5000 for the third, M. Boucau buyer. "Viva Boucau!"

Rabbits and bacon and cabbage, a vulgar though appetizing dish, is a dangerous one just now, as an epidemic is raging amongst the Bunnies in La Plata, the principal rabbit market in the republic. Many people swallow "gato por liebre," or rather "biscacha por conejo" and never know it. It's a shame, however, to associate good Limerick bacon with "biscacha."

We are requested to intimate that at the Burns' Anniversary Dinner of the St. Andrew's Society of the River Plate, tomorrow (Friday) evening, the dress will be morning dress or kilts.

Doctors are gloriously paid in this country. The two distinguished medical men who examined the Olavarria murderer after his arrest, to see if he was mad or sane, have received the whopping fee of 6500 nats from the La Plata Government.

We find the following advertizement for a wife in the New York papers. Should the bold Imperial dragoon find nothing to suit him in the north, he might try the Plate; but he is evidently such a mercenary dog, that, probably, no Argentine girl would have him, for all his grand title:—

"The following letter, written in excellent German, reached the Bureau of Vital Statistics to-day:

Kowno, Sept. 28, 1888.

EDITORS TABLE.

(Continued from the 1st Page.)

"Weather permitting" is, unfortunately, a necessary addendum to all programmes and announcements of a public nature in the old country; but in this favoured clime it has been unknown till now, when we see the auctioneers have been forced by "that miscreant, Jupiter Pluvius," to put the saving clause, "si no llueve," in their advertizements. The climate of this country is changing. We must, however, be prepared for anything and everything now, as the end of the Earth is getting within measurable distance. The scientists have decided that this planet has already lived 25 millions of years, and has barely ten millions more of existence before it, as fashionable planets like Mother Earth—as is usual with ladies in general—never get into the forties, but prefer to disappear at the early age of 35 or 37 millions of years. Life is so thunc cringly fast now, especially in the Plate, that 10 millions of years is not so very far to look ahead, especially for a land speculator, or Bear on the Bolsa. The latter would think nothing of having a big "descubierto" open for the Last Day, when he would be pretty sure to buy in cheap.

Mr. Martinez de Hoz s 27,000 Cedulas, which he lost last week, as he thought, in a hack coach, have been found by a poor woman, whom Mr. de Hoz will no doubt reward handsomely.

More bogus building. The side wall of a house in course of construction in Calle San Juan came down with a crash on Tuesday and buried an unfortunate Italian bricklayer in the ruins. The poor fellow was sent home in a dangerous state.

The *Correo Español* says that asses and mules are of no use, and are only employed in Spain, Portugal and other Latin countries. We consider this a most unjust aspersion on two very useful animals. The Spanish Ass bears the reputation of being the finest of his species. It may be, however, that our colleague's remarks are slyly meant to refer to the biped variety of the animals in question. If so, we can assure him that splendid specimens of the creature are to be found in other than Latin countries. As regards their utility, we are on record with our esteemed contemporary. The La Plata papers moan dolefully over the hordes of filthy but healthy beggars that infest the provincial capital, and say that nine out of every ten of them are rank impostors. Of course they are. The leading beggars in this city are all wealthy, with houses, Cedulas, bank accounts etc. No one should give a cent to a street-beggar here: it is only encouraging the nuisance and abuse. We saw a well-known beggar the other day in a shining tall hat and black suit, probably on his way to play billiards at his club; and another was pointed out to us who has chocolate for breakfast every morning; and probably "pate de foie gras", grilled bones, devilled kidneys and other luxuries also. Buenos Ayres is a paradise for rascally beggars.

POR LOS MISMOS

Importantísimo remate, dá 1600 cuadras cuadradas de riquísimo campo, á un paso de la capital federal, en el partido General Rodriguez, á 3 leguas de la estacion del F. C. del O., por division de condominio entre los Srs. Garraham hermanos, 1600 cuadras cuadradas, situadas en el partido General Rodriguez, á solamente 3 leguas de la estacion del ferro carril del Oeste, con 3 potretos alambrados, diez pueblos de maiz, molino, corrales, etc., etc.

Sus linderos son el arroyo de la Choza, Furiquetas y Eugenio Manny, Luis Irigoyen, Pellegrini y Lagos y los herederos de Pedro Ham.

El campo es de los mejores que existen en los alrededores de la capital, tanto para agricultura como para ganadería, así es que creemos innecesario recomendarlo.

La venta se efectuará irremisiblemente pues hay que dividir el condominio. Títulos de primer órden.

Planos detallados pueden obtenerse en nuestra casa, Alsina núm. 482.

Nota: Cualquier interesado que quiera revisar el campo puede dirijirse al Gefe de la Estacion General Rodriguez que él les proporcionará carruaje y les dará la direccion del campo.

Grandioso remate de
CHACRAS

en el colonia SAUCE CORTO, á 30 cuadras de la estacion del ferrocarril y sobre el arroyo del mismo nombre; cond ciones ventajosisimas para el pago, base para la venta 50 ps. por hectaren lo que tiene cédulas hipotecarias; escrituras gratis; el remate tendra lugar en la estacion SAUCE CORTO (F.C.S.)

El Sabado 2 y Domingo 3 de Febrero

á las 12 del dia,

y despues de una carne con cuero, daremos principio á la venta de las magníficas chacras que ocuponen la colonia Sauce Corto (centre agricolo) situada á solamente 30 cuadras de la estacion del mismo nombre del ferrocarril del Sud.

Calidad del terreno—En toda la estensa zona que tiene la linea del ferrocarril del Sud, no existe una area de tierra que sea mas adecuada para la agricultura.

En cualquier parte, el labrador encuentra mas de un metro de profundidad de tierra vejetal, no siendo estraordinario que la capa de tierra arable pase de 2 ó 3 metros.

Es una planicie uniforme, donde jamas se estacionan las aguas, sirviendo el arroyo Sauce Corto, para el dranaje natural de todo el campo, pues lo limite al Norde. Este por sus elevadas barrancas.

Todo el perimetro destinado á la colonia, está alambrado. No existe dentro de el hacienda alguna.

Todos los agricultores conocen las ventajas y concesiones que tienen segun la ley de centros agricolas con arreglo á la cual se venderan estas chacras.

Las tierras reconocen una hipoteca de $50 m|n por hectaras pagaderas en 25 años, que pasara al comprador, limitandose cargo de dichas cédulas al precio de bolsa el dia antes del remate.

Y el resto se abonará un 5 o|o al contado y 95 restante á cuatro años de plazo con hipotecao del mismo campo.

NOTA—Los interesados tienen que salir en el tren de la tarde del Viernes 1° de Febrero de la estacion Constitucion.

Planos detallados pueden obtenerse en nuestra casa, Alsina 484.

denominado Los Angeles en el partido de BRAGADO, compuesto de 4634 hectareas 72 áreas, y 28 centiáreas, con poblaciones, alambrados, quintas, &c., &c., dista 24 leguas de la estacion Olasconga. campo de esplendides pastos, para agricultura y ganaderia, condiciones ventajosísimas para el pago, mitad al contado, mitad 4 seis meses de plazo; base para la venta 25 pesos m|n la hectárea. En nuestra casa calle Alsina 482 m|n.

El Viernes 15 de Febrero

á las 2 en punto de la tarde,

remataremos por orden terminante de sus dueños y con la base arriba señalada, pagaderos mitad al contado y mitad á seis meses de plazo, con pagaré hipotecario y el interes de 7 o|o anual.

El magnifico establecimiento de campo denominado Los Angeles en el partido del Bragado distante solamente 5 leguas del pueblo y 24 leguas de la estacion Olasconga.

Sus linderos son por el N. E. Juan Lopez Cruzy Maximo Fernandez; por el S. E. Benito Iglesias; por el N. O. Juan Pablo Rodriguez; por el S. O. Carlos M. Nuon.

El establecimiento principal consta de dos piezas de material, una quinta de 16 cuadras cuadradas de varias frutas y montes de sauces y acacias, habiendo en el campo todos puestos; la quinta San Pedro con cinco cuadras de monte, &c., &c.

El campo está alambrado por sus cuatro costados.

Hay tambien como 800 cuadras mas ó menos cercadas por chacras.

El campo puede ser visitado: bajándose los señores interesados en la estacion Olasconga.

Planos detallados y otros informes á nuestra casa, Alsina num. 482.

POR LOS MISMOS

Continuacion del remate en Mar del Sud.

De 400 Manzanas

con los baños de mar, próximos á Mar del Plata: cada manzana dividida en 10 lotes con base de 20 ps. m|n. cada lote. En el nuevo pueblo Mar del Sud. La mejor playa sobre el Océano Atlantico donde pueden bañarse las señoras y las niñas.

El Lunes 28 de Enero

A las 2 p. m. en nuestra casa Alsina 482, Continuaremos el remate; suspendido por falta de tiempo

los terrenos arriba expresados que distan solo 1 1/2 legua del pueblo Mar del Plata de los 20 por 50.—Se venderá un lote con opcion á una manzana Podemos garantir que es la playa mas tranquila de la costa Sud. y no hay médanos que molestan los dias de vientos fuertes. Este pueblo tiene una situacion escepcional: por una parte de frente al mar y por otra es limitado por el precioso arroyo de las Carolina que nace de las sierras proximas. El agua de este arroyo es la mas rica y saludable que se puede desear para la provision de un pueblo. Ya ha sido solicitado este año al Honorable Congreso el permiso para establecer un ferro-carril que partiendo del Mar del Plata pase por este nuevo pueblo. Se esta construyendo un gran hotel con las comodidades necesarias para que los que compran lotes puedan ir ya á tomar los baños.

¿Quien no se hace propietario en la mejor playa del mar por 20 ps. m|n. Todo comprador entregara el 5 o|o al firmar el boleto.

We have the honour to inform the public that we have opened a

Mechanical Establishment

for the fixing of pipes and apparatus of all kinds with specialities of hot-air, steam and hot water heating apparatus for any building whatsoever, disinfecting and drying apparatus, and gas, water and ventilating pipes

Further we hold au arrangement for industrial establisments, which is an antimeter for the feeding of every kind of boiler. This apparatus carries the water to the highest degree of heat without danger to personal safety and with great economy in fuel, as it only works with used or direct steam,

We also undertake the fixing of apparatus and machines for distilleries, breweries and liqueur manufactories; as also for sugar, oil, and chemical factories, &c.; also for furnaces and apparatus for bakeries and confiterias, working continuously.

We hold a stock of pipes of all kinds of copper, iron, brass and lead and fittings; and undertake the most difficult work in copper and iron piping, and erection of boilers and machines, and fixing of transmitters.

Drawings, plans, estimates, and testimonials of constructions effected in Europe and in this Republic are at the disposition of those interested.

ESPECIFICO de HAYWARD en POLVO
The cheapest and most effectual Dip in the market.
It costs a fifth of the price of Tobacco Dips.
It is the easiest of application, cold water only required.
It is the only Dip that is so durable in the wool as to keep the sheep clean and free from contagion from dipping to shearing, thus saving a great deal of valuable time and labour to the Estanciero during the winter months.
It is fast becoming the favorite Dip throughout the world, as it never fails in the worst cases of Scab.
See Testimonials from Flockowners in the Argentine Republic.
Manufactured by TOMLINSON & HAYWARD, Lincoln, ENGLAND.
Established upward of 45 years.
Sold in cases containing either 80 small, 20 medium, or 10 large packets. Each case makes 1600 English gallons, or 1900 Galones Argentinos.

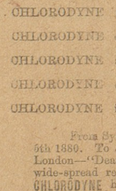
Dr. J. COLLIS ROWNE'S CHLORODYNE
(Ex Army Medical Staff)
IS THE ORIGINAL AND ONLY GENUINE.



CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.
The Public, therefore, are cautioned against using any other than
Dr. J. COLLIS BROWNE'S CHLORODYNE
REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.
It is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.
From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esqr., 22, Great Russell Street, Bloomsbury, London—"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, **DR COLLIS BROWNE'S CHLORODYNE** has earned for itself, not only in Hindostan, but all over the East. As a remedy it stands still pre-eminent, much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of **DR. COLLIS BROWNE'S CHLORODYNE** in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred within our personal observation during many years. In Cholerate Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, &c., &c., faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."
Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."
CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

The premium began to show signs of tottering to-day, declining considerably for cash and dates, which brought forward a good many sellers, and would have been still further accentuated but for the fact that several leading bears are buying heavily. How long the fall may last or how far it may reach is still a matter of conjecture, but there is no doubt that its appearance affords general relief, as not only were the gold bears quaking with anxiety, but even stockholders argued that discounts in paper would necessarily be much restricted if the premium continued to soar. With a decline, on the contrary, the banks will be naturally much more liberally disposed, which would no doubt duly react on stocks, which at the present moment, it must be fairly confessed, look far from healthy. However, holders believe that there will be a repetition of last month's speculation, which found stocks tottering up to the very close of the month, when they most unexpectedly rallied and rose. This, after all, is but expectation and conjecture, whilst the market is too unsettled to give grounds for any definite hopes.
Operations in gold at the first hour embraced over 3 millions, of which 359,274 were sold for cash, opening at 153.80, falling to 40, advancing to 60, and closing with sellers at 153.50. The speculation for Saturday was heavy, nearly a million being sold at falling rates, opening at 153.50, falling to 153, and closing 20 cents higher. For end of month 1¼ million were disposed of at fluctuating rates, opening at 153.20, hovering round that point for some time, and then weakening to 153.20, finally closed at 153.40. In stocks there were buyers to-day for National Bank Shares at 273.50 for March, but for end of month 266 is the highest rate quoted, although buyers are asked half a point higher. Constructors are keeping a bold front at 137 for end of month; all other stocks are dull and flat.

From Rosario it is reported that Mr. Gregory Machain has sold a property situated near Arroyito, measuring 209x4500 varas at 33 centavos the vara, buyer a syndicate of capitalists. The rains are causing heavy losses all over the camp.
We have received the following letter from the manager of the Spanish Bank in Rosario with regard to an account against the Bank for fittings, etc., commented on by Rosario colleagues. The letter speaks for itself:—

"Dear Sir,—
"Referring to the remarks contained in 'Editor's Table,' dated 19th of the present, under the heading 'Noblesse oblige,' I may be allowed to state the following:—
"Firstly, that the Bank has not refused 'to pay some 10,000 and odd dollars,' as 8,000 Nats. were paid long before the completion of the work, and part of it prior to the decease of the contractor.
"Secondly, that there is no reason for special feelings, as you are inclined to believe, considering that the successors of the carpenter, i.e., the widow, proceeded with a decided want of straightforwardness, and, on the other hand, she is, pecuniarily speaking, fairly well-to-do. There are no orphans, as you state.
"Thirdly, notwithstanding this, the Bank has proceeded with the highest delicacy, and I may assure you that any English concern would have adopted a stronger course.
"Fourthly, The Bank now simply insists upon the work being valued and valuers named for the purpose before paying any more money.
"Believe me, dear sir,
"Yours very faithfully,
"ALEXANDER ZUKER,
"Manager."

The Free Bank Inspection Office is hard at work reducing to ashes the old greenbacks and paying out the brand-new shinplasters in their stead. Of the Provincial Bank 19,100,000 of the old issue have been already destroyed. The National Bank has absorbed all its new issue, with 30,000,000 lately received. The Banco Provincial de Santa Fe has received 7 millions, Santiago del Estero Bank 2,070,000, Tucuman Bank 2½ millions, Salta Bank 4,307,000 and San Juan Bank 552,000. Some banks have also in circulation part of the old issue which will be withdrawn as soon as the new issue to replace it arrives. Of the old issue there is still in circulation 5½ millions of Entre Rios Bank, 3 millions Mendoza Bank, 1,100,000 San Juan Bank, 1,230,000 Catamarca Bank, and 1,045,000 Rioja Bank. The German Bank has 1 million in circulation in accordance with terms of the law. The provinces of Tucuman, Entre Rios, Salta and Santa Fe have met their acceptances with the National Government for amount of the gold bonds guaranteeing their issues.
A decree making the following appointments was issued yesterday:—
In the 11 de Setiembre—Juez Titular: Dn. Pedro M. Cernadas. 1st Juez Suplente: Dn. U. Garcia. 2nd Juez Suplente: Juan M. Miranda.
Members of the Tribunal de 1° Instancia—Titulares: Don Gregorio Gallegos, Don Francisco Morestore, Don Pedro Llovet. Suplentes: Don Valero Gallarce, Don Jose Somaviva, Don Mariano Marmol.
Plaza Constitucion—Juez Titular, Don Enrique Bonifacio, 1st Juez Suplente, Don Jose M. Trelles; 2nd Juez Suplente, Don Adolfo Bonorini.
Members of the Tribunal de 2nd Instancia—Titulares—Don Miguel Mendes, Don Angel Trelles, Don Luis A. Booth.
Suplentes—Don Pedro Vivaneo, Don Guillermo Allen, Don M. Chillado.
The Finance Minister paid over to the Municipality yesterday $109,301, being 40 per cent. of the Contribucion Directa and 20 per cent for patentes for month of last November.
The decree approving of the proposed alterations in the third section of the Port-Works, to which we alluded in a recent issue, is so lengthy that we cannot find room for it. Suffice it to say, as already observed, that the alterations have been approved.
The Government has approved the transfer made by Messrs E. Ferrari and Co. of their right to construct a canal uniting the Parana (Las Palmas) and the Lujan. The new contractor is Mr. F. M. Perrone.
The Chairman of the National Banks' Inspection Bureau informed to-day the Minister of Finance that the manager of the Deutsche Uebersee Bank, which was only incorporated under the Free Banking Act on the 15th of last September, has already put aside to the respective accounts according to Art. 14th of the Bank Law, eight per cent of the profit made by the bank in 1888. The sight per cent. of those profits amounts to 16,993.83 dollars gold; the total profits were $202,422.85 gold. The reserve fund of the Bank amounts to $116,993.83 gold. These figures are a high compliment to Mr. Maschwitz's able management of the Bank's affairs last year.
There was a tremendous fizzle in the gold market at the second hour, and gold was banged away in buckets full for all dates bringing quotations rattling down about the ears of dismayed and dismaying bulls. Such a "degringolade" as occurred this evening is rare even in such a fluctuative arena as the ring, and no wonder the market is puzzled to think what will be the end of such a tremendous fizzle following on the heels of a no less startling flare-up. As for stocks they were utterly neglected such was the intensity of the excitement in gold. In all to-day some 7½ millions were sold, the prices opening in in the morning in the neighbourhood of 154 and closing in the evening at close on 151.
The San Juan budget has been sanctioned by the Legislature, the estimates for the year being 608,000 for expenditure and 618,000 for ways annd means. There is a decided scarcity of small notes of five and ten cents. Weather warm and threatening rain.
The Board of the Provincial Mortgage Bank meet on Friday next and it is reported that one of the members will propose to give preference to all petitions under 10,000 dollars, a most excellent move.
It was announced to-day that the important auctioneering business of Sanches and Moreno is about to change hands, Messrs. Lagos and Funes being the new Tattersalls. Both gentlemen are already well known in this market.
The following is a summary of operations effected this evening at the 2nd ring:

The s. s. Petrarch arrived to-day from Barcelona and ports with cargo of wine for this port.
The s.s. Sorata arrived in Montevideo to-day and sails to-morrow for the Pacific.
The s. s. Medoc has arrived at Montevideo.
The s. s. Ohio arrived in Montevideo to-day from Bremen and Antwerp with 1000 tons of cargo, 8 first-class passengers and 900 third-class.
Mr. Altgelt sold this morning in the Plaza Constitucion a fine lot of new wheat, barletta quality, from the South at the splendid price of 7 dollars the 100 kilos. A lot of 700 bags from Junin, also new wheat Juzela seed quality, was bought by the San Martin mill at 7 dollars the 100 kilos. There is reported to be little or no old wheat on hand, the stock having worked off, whilst due to the damp condition of the wheat arriving now it cannot be worked. It is therefore more than probable that the first lots from the rivers will fetch 8 dollars. The rise in wheat is followed by a rise in flour, and this means dear bread.
Mr. B. A. Prichard, manager of the London and River Plate Bank, Rosario, was welcomed on 'Change and much congratulated by his numerous friends on the prosperous march of his bank, and on the new bank building which he inaugurates on 12th next by two concerts, one for the German and the other for the British Hospital.
The Bolsa was full of all sorts of rumours to-day. At noon it was said that Dn Rufino Varela would be Minister of Hacienda and Dn Pacheco Minister of Interior, and in the afternoon the rumour was that Dn Ernesto Tornquist would be the new Finance Minister; but up to a late hour nothing certain was known from the Government House.
The whole Bolsa approves of the conduct of Dr Wilde, late Minister of Interior; and some of the most representative men said that if Dr Wilde came on 'Change to-day at 3.30 there would be a splendid demonstration in his favor. Public opinion could not be more pronounced than on this subject of Dr Wilde's resignation.
Mr. D. Ayarragaray' the popular manager of the Uruguayan National Bank, was welcomed to-day. This bank is at present attracting much attention in this market where many of its shares are held, and a summary of the bill presented to the Chambers will be read with interest in our telegraphic columns. Mr. Ayarragaray purposes visiting Europe in May next on a 6 months' trip.
We forgot to publish the sale last week of the Curumalan wool at 5 nats. per 10 kilos, which is about the highest price paid for so large a lot, but then the lot is perhaps the largest and best in this market.
The meeting of shareholders of the Banco de Italia y Rio de la Plata is postponed to the 29th inst. at 8 p. m. The meeting of the Banco de Comercio comes off on the 28th inst.
Advices from the country districts state that it is a great mistake to suppose that the whole wheat crop is lost, owing to the great rains. A small portion of the crop is lost, nothing more.
The *Prensa* article called "Finanzas Electorales" was the talk of the whole Bolsa to-day. It is the severest article we have read for some time, and censures Dr. Pacheco severely for the part he played in the Cabinet Council on the question of the Mendoza revolution.
Mr. W. Walton Williams, engineer of the J. Lysaght, Ld. Co., Bristol, the biggest galvanized iron firm in the world, was welcomed on 'Change to-day. Mr Williams has come out to put up the immense iron roof over the Central Produce Market, which bears this relation to the galvanized firm that it will be the biggest market in the world, with the biggest roof, covering 9 acres of ground. Mr. Williams, however, has much experience in roofing, having erected the Cebada and Mostenses Markets in Madrid, the former being the most important one in Spain. The market will be in working order this year.
Advices from Colonia report that the late heavy rains have played havoc with the crops, the flax being a total loss and the wheat very little better, even what is saved of the latter being almost worthless.
In the Mount a company is being formed with capital of $300,000 to start busses, cabs, drays, etc., a combined carriage and transport business. Affairs on 'Change are looking more cheerful, due to the rumour that syndicates are being formed to drive up both National Bank and Obras Shares; with regard to the National Bank project before the Chambers, it seems that it will eliminate the Government as a shareholder, a certain percentage of the profits being allowed the Government in return for its 6 o/o guarantee of the Cedulas. The shares have already advanced in value. Baring Brothers, it is reported, have taken Cedulas to amount of two million pounds stg., for which they will procure a quotation in Europe, thus facilitating their negotiation. The National Bank's profits for last year amount to $1,800,000, from which a dividend of $3 per share will be paid.

Land Auction in Quilmes.
141,662 square metres, opposite the railway station at QUILMES.
On Sunday, 27th of January
AT 12.30 P.M.
On the ground itself where the flag will be seen.
The lands are known as those of Giraldez.
The upset price is
56 cents the square metre
at which rate there is a mortgage on them in Provincial Cedulas N. Those who do not wish to take over the mortgage can pay in cash.
Title-deeds gratis.
If it should rain on Sunday the 27th before 10 a.m. the sale will be postponed till the following Sunday.
The sale will be in lots of all sizes, which will be convenient, in consequence of the mortgage.
Let it be carefully noted that the sale is by the square metre, not by the square yard. The metre is one fourth larger than the square yard. The upset price is equivalent to 42 cents per square yard.
I will require 10 per cent of the amount of purchase money, to be paid on signing the "boleto."
